About Us

At **Trisha Sales Corporation**, we persistently endeavor to achieve higher level of Customer Satisfaction by effective deployment of all our resources, Transparency & Excellence in Engineering, Process, Quality, Pricing & Proactive Service. We also value our responsibility to be environmental Friendly in all our activities.

Trisha Sales Corporation aims to be established as a brand for the Stainless Steel high purity Flow components & precision turned components by 2014 with enhanced customer satisfaction by meeting all their technical needs under one roof with the Principal of Fairness & becoming business partner to the customer.

Along with our business partners, **Trisha Sales Corporation** aspires to be one of the established engineering companies contributing meaning fully in bringing the world's best technologies & equipments, thereby achieving the preferred choice status for the customers across the Globe.

Along with our business partners, **Trisha Sales Corporation** aspires to be one of the established engineering companies contributing meaning fully in bringing the world's best technologies & equipments, thereby achieving the preferred choice status for the customers across the Globe.

High Purity flow is an un-stagnant flow, hence we offer the tubes and fittings with internal surface free from uneven process marks, weld line suppressed to parent surface, ends prepared for better Weldability & Electropolished surface with roughness value upto 0.3 μ ensuring un-stagnant, high purity flow.

Conversion of Surface Finishes		
Standard grit	Ra	RMS
	m-m	m-m
150grit	0.68-0.80	0.76-0.89
180grit	0.46-0.58	0.51-0.64
240grit	0.34-0.46	0.38-0.51
320grit	0.21-0.25	0.23-0.28

Ra Readings

Mechanically Polished		
	Ra Average (Note 1)	
Surface Designation	m-m	m-m
SFF1	0.375	0.5
SFF2	0.5	0.625
SFF3	0.625	0.75

Mechanically Polished & Electropolished		
	Ra Average (Note 1)	
Surface Designation	m-m	Ra - Max
SFF4	0.25	0.375
SFF5	0.375	0.5
SFF6	0.5	0.625

PRODUCT - DAIRY & PHARMA SS FITTINGS

LONG BAND - R 1.5D

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

LONG BAND - R 1D

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

SHORT BAND

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

EQUAL TEE

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

UN - EQUAL TEE

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

PULLED TEE

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

CONSETRIC REDUCER

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

SMS UNION

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

TC CLAMP SET

MOC	304L / 316L
Connection	Plan, SMS, TC End
Size	1" to 4"
Specification	Bs4825 - 2 / 3A

Applications

- ☐ Dairy process plant
- ☐ Beverage Industries
- ☐ Food Industries
- ☐ Biotech Industries
- ☐ Electric & Electronic Industries
- ☐ Pharmaceuticals Industries
